

ISTEP

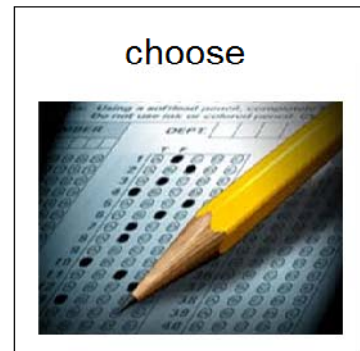

**ISTEP is a test for students in Indiana.
The test checks what students know and learn at school
and if students need help learning more.
ISTEP includes tests in math and language.**

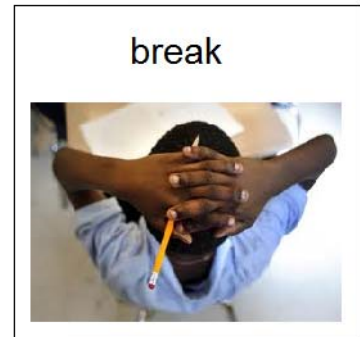

**Some students take the test in class.
Some students take the test in groups.
Sometimes students read the test.
Sometimes teachers read the test to students.
It is good to do my best work.**

**To take the ISTEP, students try to choose the
answer that is correct. If taking a paper test,
it is good to try fill the circle in neatly and completely and
to try not to leave marks outside of the circle.
If taking a computer test, it is good to take time
to choose the best answer.**

**There will be breaks during ISTEP.
The teacher or adult in the room will let students know
when it is time for a break.**

Everyone should try to do their best on ISTEP.
