We are a Team

We work as a team with local police and highway departments, as well as other neighboring school districts.

We check our Roads

Beginning at 4:30 A.M., the Transportation staff drive a variety of roads throughout the district to determine whether roads are safe for travel.

We Analyze

The Transportation Director consults with staff and makes a recommendation to the Superintendent or designee and the final decision is made.

We Consider

We consider the safety for all, the modes of transportation, current conditions, and weather forecasts.

We Decide

The decision to delay or close should be made before buses leave to pick up students. Every effort to delay will be made by 6:00 A.M. or close by 8:00 A.M.

We Communicate

We communicate through: School Websites, the EACS Phone Number, Facebook/Twitter, School Messenger, and Local News.

We eLearn

EACS has an approved eLearning Program. If a closing occurs, EACS will typically have an eLearning Day for students.
