

1. For all teachers K-12 looking for more ways to engage students: Have you heard of the **MoShow App**? [Free in the App Store here](#), the MoShow App is a slide show/movie maker app; a creative tool that allows kids to turn their pictures and music into animated slideshows for sharing. Kids start by adding images from their device library. They then choose a layout, transitions, and special effects. MoShow received 4 out of 5 stars when [reviewed by CommonSense Media](#), and is appropriate for all ages.

2. For all K-2 teachers looking for more ways to engage students: Have you heard of **ChatterPix Kids**? [ChatterPix Kids](#) is user-friendly and appropriate for kids of all ages, but particularly great to use with the youngest learners in kindergarten and first grade. [ChatterPix Kids](#), a subsidiary of [Khan Academy](#), is a free animation app. Perfect for younger students, it doesn't use ads or subscriptions. With [ChatterPix Kids](#), students can easily create basic animations, bringing photos to life, meaning that [ChatterPix Kids](#) can make anything talk--pets, friends, doodles, and more! Take any photo, draw a line to make a mouth, and record your voice....that's it!! Share with friends and family as a silly greeting, playful message, or creative card. Get it free in the [App Store here](#). There are actually more than a dozen [ChatterPix apps in the App Store here](#) from Duck Duck Moose. **Twitter: @ChatterPixIt/Instagram: #chatterpix or @Duckduckmooseapps**

3. Here are a couple more great educational podcasts, if what I have already posted in previous newsletters has not slaked your thirst:

1. [The Infused Classroom](#) by Holly Clark and Tanya Avrith (showcasing online platform tools that are disrupting education in a good way)
2. [Cult of Pedagogy](#) by Jennifer Gonzalez (teaching strategies, classroom management, education reform, and educational technology)

4. For all Canvas users: **InstructureCon is coming October 7th!** [InstructureCon](#) is Canvas's free and virtual convention, held by and attended by teachers all over the country and the world. Whether you're new to Canvas or a seasoned SpeedGrader, learn to do all sorts of cool, new things with Canvas, MasteryConnect, Canvas Quizzes, SpeedGrader, and more. Watch uplifting, mind-expanding talks that will make you even more excited about the whole wide world of education. This is the save-the-date announcement. **Registration is not yet open**, but you can **submit proposals** to present at [InstructureCon](#) and put your email in to get updates. We will continue to inform staff with emails and in this newsletter. **Questions?** Please contact your Tech Coach or [Keith Madsen](#).

**Fun Technology Fact:** In all seriousness, this looks pretty cool, if making me uncomfortable: you have heard of smart watches, and smart clothing that monitors your heart rate, but how about smart underwear? Textile company Myint has been working on a fabric with embedded biometric monitors that require close skin contact to function properly. This means that to function well, the garment must be tight-fitting and in constant contact with skin. The levels, sleep quality, body conditional feedback. Your [Read more of the article here.](#)

aim is to monitor heart-rate, stress temperature, and other skin-sensitive underwear may never be the same.
