

Summer iPad Care and Maintenance

iPad Care

- Carefully transport your iPad, holding it closed like a book.
- Do not eat or drink on or above an iPad.
- Avoid placing weight on the iPad; do not place heavy books on the iPad or sit on the iPad.
- Never throw or slide an iPad.
- Never expose an iPad to long-term temperature extremes or direct sunlight. Do not allow the iPad to overheat or leave the iPad in a car.
- Clean the iPad with a dry or slightly damp soft cloth or microfiber cloth. Do not use any cleaners or abrasives on the iPad.

iPad Case

The iPad comes with a district-issued case. The purpose of the case is to protect the iPad, especially while the iPad is being transported. When not in use, closing the iPad case will save battery life and protect the screen. The iPad must remain in a protective case at all times. Do not decorate or write on this case (no stickers or markers) unless placed there by school staff. Do not damage or write on the asset tag sticker on the iPad or iPad case.

iPad Battery

The iPad should be charged using the provided charging brick/cord. It is your responsibility to charge the iPad and ensure it is ready for use in school each day. Swiping and closing Apps and browser windows, and dimming the iPad's brightness can extend battery life. Replacement iPad bricks/cord MUST BE Apple-brand bricks/cords.

iPad Screen

Never throw a book bag that contains an iPad. Never place an iPad in a book bag that contains food, liquids, heavy, or sharp objects. While the iPad is scratch resistant, it is not scratch proof. Avoid using any sharp object(s) on the iPad. The iPad screen is glass and vulnerable to cracking. Never place heavy objects on top of the iPad and never drop your iPad. Careful placement in a backpack is important. iPads do not respond well to liquids. Avoid applying liquids to the iPad. The iPad can be cleaned with a soft lint-free cloth. Avoid getting moisture in the openings. Do not use window cleaners, household cleaners, aerosol sprays, solvents, alcohol, ammonia, or abrasives to clean the iPad.
