Fee Information:

- **ENROLLMENT CONTINGENT UPON FEE PAYMENT BY CASH, CHECK, or CARD to the base school by Tuesday, June 1, 2021. Absolutely no exceptions will be given after this deadline has passed.**
- ****There are fees associated with online payments. See the summer school website or your counselor for more information.**
- Payments will not be accepted at summer school orientation meetings.

General Information for ALL Learners:

- Campus Classes: 8:30 am -12:30 pm, Monday – Thursday at Susie G. Gibson Science and Technology Center - For students repeating courses or falling behind in progress.
 - **Repeat courses will work on site for the first 2 weeks.** Maintaining progress will earn a release to work at home.
 - If students fall more than 10% behind in progress, they may be asked to come in to work on site until the grade and/or progress improves.
- **Chromebooks must be checked at the base school before the end of school year by an ITRT or an IT Technician. If you cannot do this, you must check in at Susie G. Gibson Science and Technology Center on June 8th for a check during school hours of 8:30 am - 12:30 pm. No Chromebook check could result in dismissal from the program.**
- Virtual classes
- Testing (WISE test for Personal Finance and end-of-course SOL tests) will occur when students are ready and will be scheduled with students. All SOL tests are untimed, but must be completed in one session
- Success conferences/advisories with a teacher will occur weekly via one of the following methods: face-to-face, phone conversations, or by the utilization of technology.

****Out of County students will be required to obtain a pre-approval letter on official school stationery signed by their principal stating acceptance of the credit and program procedure.***

****Working outside of the hours of summer session will be necessary for all students to complete the coursework.**

Students will be participating in multiple methods of instruction, which will be personalized based on individual student data from pre-assessments, teacher observations, previous SOL test results, weekly progress conferences, and a student's self-assessment throughout the course.
